*"I am a small business owner with many of employees working for me for decades. I am also an attorney, a family man and a 27-year resident. I have the experience and fresh perspective needed for the future of our great city. Whether we are talking about new development or preserving the beauty and history of our collective past, I'd like to hear **what YOU want** and need. I care deeply about Brecksville and **I want you to love the town you live in.**" --- Jack*
